CONCEPT UTILITY LETTER APPROVAL BLOCKS

Engineer's Statement:

The enclosed conceptual utility letter, and exhibits, were prepared by me or under my direct supervision and is correct to the best of my knowledge and belief. Said utility letter has been prepared in accordance with applicable Town of Castle Rock criteria and is in conformance with the master utility plans for the affected area. I accept responsibility for any liability caused by negligent acts, errors, or omissions on my part in preparing this report.

Treven Edwards

Owner/Developer's Statement:

As Owner/Developer of Land(s) identified within this report; I agree to proceed, implement and comply with all recommendations and requirements outlined herein.

Name of Developer

Authorized Signature

II. General Location and Description

The purpose of this report is to demonstrate that the proposed sewer and water system for the proposed commercial site conforms to the current Town of Castle Rock Water and Wastewater System Design Criteria Manuals and does not adversely impact the existing sewer and water system servicing the site.

The project is located within Douglas County, at the southwest corner of Meadows Parkway and Prairie Hawk Drive in Castle Rock, Colorado, and consists of approximately 6.7627 acres. The site has been previously platted and is currently developed and contains a church building with an asphalt parking area. The site is contained in the Northwest Quarter of Section 34, Township 7 South, Range 67 West of the 6th Principal Meridian, Douglas County Colorado. Specifically, that tract of land being a portion of "The Meadows – Filing No. 3" as recorded under reception No. 8802433 of the records of said Douglas County, together with all of Tract HH and a portion of Tract FF, both of "The Meadows Filing No. 18", as recorded under reception No. 2005055505 of said records, together with a portion of that parcel of land described under reception no. 9733595.

This development will propose to subdivide the existing lot into a new lot of 1.50 acres and propose a 3-story office building of approximately 61,710 square feet. This proposed subdivided lot will be re-zoned commercial. Refer to the Vicinity Map in **Appendix B** for additional information. Water usage will be based on the proposed commercial buildings square footage of 61,710 SF and the anticipated use of retail/offices.

As set forth in the *Water System Design 2018 Criteria Manual* for the Town of Castle Rock, Average Daily Demand (ADD) rates are computed based upon the land use and building square footage of a given development. The Town of Castle Rock also requires the number of Single-Family-Equivalents (SFE) to be calculated as well. The SFE and ADD Calculations are provided in **Table 1** below.

Table 1: SFE and ADD Calculations

Development Name	Land Use	Building Square Footage (SF)	ADD/Unit (From Water Criteria Manual) (GPD/SF)	Calculated ADD (GPD)	SFEs/Unit (From Water Criteria Manual) (SFE/SF)	Calculated SFE
Meadows Medical Plaza	Retail/Offices	61,710	0.2	12,342	0.0005	30.85

The proposed development lies within Zone X, outside of the 100-yr floodplain as shown on FEMA Firm Panel 08035C0169G, dated March 16, 2016. A copy of this map panel can be found in **Appendix A**. The proposed development is located approximately 3000 feet west of East Plum Creek. The site generally drains from west to east.

There are currently no existing irrigation canals or ditches located on the property. There are no significant geological features located on the property. There are currently no on-site wastewater treatment systems or existing water wells located on the property.

III. General Location and Description

Existing Water System Infrastructure

According to the Town of Castle Rock Utilities Map dated March 16, 2023, multiple water mains are located adjacent to the site. All water mains are located within the yellow pressure zone as described in the *2023 Water Master Plan*. An 8" PVC water main runs to the east and north around the proposed development. A 12" water main of unknown material runs East/West along Red Hawk Drive. A 16" DI water main runs north/south along Meadows Blvd. Two existing stubs are located near the proposed development. One 8" PVC stub lies south of the site off Red Hawk Drive. Based upon the *Final Utility Report for The Meadows Filing No. 21*, this stub is connecting to a 2" blow-off assembly. Another 8" DI stub lies West off Meadows Blvd. A copy of the referenced utility map is provided in **Appendix D**.

The proposed development is located within the Meadows Yellow pressure zone as shown in the 2023 Water Master Plan. The closest PRV's are PRV 54 and PRV 5 as shown in the same map. A copy of this map is provided in **Appendix D**. Pressure assumptions are provided in the *Water System Design 2018 Criteria Manual* for a given zone and the max HGL elev. for the Meadows Yellow Pressure zone for which this development is located in is 6352'.

The water supply required to service this development was addressed in the 2023 Water Master Plan update in Figure 3.6. The proposed development is located within PD #70 which is in the Meadows (1985) planned development. Figure 3.6 states that 7786 units have currently been built and that the potential low buildout and high buildout numbers are 7977 and 8489 units respectively. Given that this development has a calculated SFE of 30.85, adequate capacity is available within the system.

Existing Sewer System Infrastructure

According to the Town of Castle Rock Utilities Map dated March 16, 2023, there are existing sewer mains located close to the proposed development. To the south, along New Haven Circle, there is an existing 8" PVC sewer main. To the west, along Future Street, there is an existing 8" PVC main. There is an additional existing 8" PVC sewer main located to the west along Ambrosia street. Finally, there is an existing 8" PVC sewer main located east of the proposed development within the existing Bonaventure Assisted Living facility. This main is noted as going to the Meadows F17 Lift Station. A copy of the referenced utility map is provided in **Appendix A**.

The proposed development is located within the Meadows F17 Lift Station area as described in the *Wastewater Master Plan 2022 Update*. The existing mains that connect to this system are located to the east of the development. The proposed development is not located within any other known collection subbasins. It is noted that the Meadows F17 Lift Station lacks the capacity to service this development should it connect to that system to the east. No capacity issues are noted should this development connect to the systems to the south or west.

IV. Proposed Utility Systems

Regulations

This report conforms to the specifications and design methodology set forth in the *Water System Design 2018 Criteria Manual* and the *Wastewater Collection Design 2018 Criteria Manual* published by the Town of Castle Rock as well as the *Water Master Plan 2023* and the *Wastewater Master Plan 2022 Update* published by the Town of Castle Rock.

Proposed Water System

It is anticipated that this development will tap into the existing water system at 1 of 3 possible locations. The first option is to tap in the existing 8" PVC stub located near the NE Corner of the intersection of Red Hawk Drive and Meadows Boulevard. This existing stub is on the southwest corner of the proposed development. The second option is to tap in to the existing 8" DI stub coming off Meadows Boulevard, on the west-central side of the development. The final option is to tap in to the existing 8" DI water main that loops around the east and north side of the proposed development. As utility connection locations within the proposed development are not yet known at this time, there is currently no preference to one tapping location over another.

As this proposed development will be using a commercial service tap and not extending the distribution system, looping is not a requirement for the site and this development will remain in conformance with the *Water System Design 2018 Criteria Manual*.

As stated in the Existing Utility Infrastructure section of this report, there exists sufficient capacity within the water distribution system to service this development. As stated in **Table 1** earlier in this report, the ADD is estimated at 12,342 GPD and the SFE is estimated at 30.85. No additional supply facilities will need to be proposed to adequately service this development.

Proposed Wastewater System

No sewer mains lie directly adjacent to the proposed development. As such, this development will need to install an 8" PVC main to connect to existing sewer infrastructure. Due to a lack of capacity in the Meadows F17 Lift Station system, only two feasible points of connection for this development exist. One option is to connect to the existing 8" PVC main on New Haven Circle. The other option is to connect to the 8" PVC main on Future Street. The inverts at both of the manholes that can serve as a point of connection for this development were noted as being too shallow to be able to have this development connect through a gravity main. Because of this, a pump station will be required as a part of this development for both possible points of connection. The preferred point of connection for this development at this time is to the sewer manhole located on New Haven Circle. This is due to a shorter horizontal distance to that manhole from this development compared to the manhole on Future Street. Installing pipe to the manhole located on Future Street would also create a more difficult installation as it would require the pipe to be bored across Meadows Boulevard. Any future development of the existing wastewater infrastructure needed to service this site is the responsibility of the developer.

In the *Wastewater Master Plan 2022 Update*, no issues of system capacity were noted for the development area for which this development is a part of. This development would be the furthest upstream connection for either of the two systems that this development can connect to. Since this

development is only increasing demand by 30.85 SFEs, no significant impact is expected on downstream infrastructure

VII. Conclusion

Meadows Medical Plaza conforms to the current criteria set by the Town of Castle Rock in *Water System Design 2018 Criteria Manual*, *Wastewater Collection Design 2018 Criteria Manual*, *Water Master Plan 2023*, and *Wastewater Master Plan Update 2022*. More detailed design calculations will be provided and discussed in the subsequent Preliminary Utility Report and Final Utility Report.

*Castle Meadows does not have a maximum cap in the zoning, however 440 MF units was listed in the most recent traffic study for this property. This property could develop with more or less residential units.

**Central Castle Rock includes straight zoned land as R-1, R-2, R-3, and B zone areas in the Downtown Overlay that allow multifamily. There is no maximum cap in the zoning, so land area and typical densities have been used to determine the area could develop out at 5,000 units.

*** Dawson Trails rezoning was approved by Council in the 3rd Quarter of 2022 (formally Dawson Ridge). As this report is through September 30, 2022, the Dawson Trails zoning documents had not been recorded, therefore the Dawson Ridge numbers are shown. Once the zoning documents have been recorded the report will be updated to reflect the new Dawson Trails zoning.

THE MEADOWS FILING No. 21 FINAL PD SITE PLAN

A part of the NW 1/4 of Section 34, Township 7 South, Range 67 West of the 6th P.M. Lot 1, The Meadows Filing No. 21, According to the recorded plat there of. Town of Castle Rock, Douglas County, Colorado

PD Site Plan - Utilities

NOTES

1. THE EXISTING GAS SERVICE TO THE BUILDING IS TO REMAIN. SERVICE TO NEW ADDITION IS TO BE EXTENDED FROM THE BUILDING INTERIOR.
2. THE EXISTING SANITARY SEWER SERVICE TO THE BUILDING IS TO REMAIN. SERVICE TO THE NEW ADDITION WILL BE EXTENDED IN THE BUILDING INTERIOR.
3. THE EXISTING DOMESTIC WATER SERVICE TO THE BUILDING IS TO REMAIN. SERVICE TO THE NEW ADDITION WILL BE EXTENDED FROM THE BUILDING INTERIOR.
4. THE EXISTING FIRE LINE WATER SERVICE TO THE BUILDING WILL REMAIN. SERVICE TO THE NEW ADDITION WILL BE EXTENDED FROM THE BUILDING INTERIOR.
5. THIS SITE AND ADJACENT WATER MAINS ARE CONTAINED WITHIN THE TOWN OF CASTLE ROCK'S "YELLOW" WATER PRESSURE ZONE.

NOTES

1. ALL DOCUMENTATION REFERRED TO HEREON, SUCH AS BOOK AND PAGES, RECEPTION NUMBERS, PLAT BOOK AND PAGES, ETC. ARE RECORDED WITH DOUGLAS COUNTY CLERK AND RECORDER, IN THE STATE OF COLORADO.
2. THIS TRACT OF LAND LIES WITHIN THE NW 1/4, SECTION 34, TOWNSHIP 7 SOUTH, RANGE 67 WEST OF THE 6TH P.M., DOUGLAS COUNTY, COLORADO.
3. BEARINGS REFERRED TO HEREON ARE BASED ON THE SOUTHEAST LINE TRACT HH, THE MEADOWS FILING NO. 18 AS DESCRIBED UNDER RECEPTION NO. 2005055505 OF THE RECORDS OF SAID COUNTY, SAID LINE BEING MONUMENTED AT EACH END BY A REBAR AND SURVEYOR'S PLASTIC CAP STAMPED "PLS 17666" AND ASSUMED TO BEAR S35°18'56"W, WHICH MATCHES THE BEARING SYSTEM USED IN "THE MEADOWS-FILING NO. 3" RECORDED UNDER RECEPTION NO. 8802433 OF THE FOREMENTIONED RECORDS.
4. THIS REPLAT DOES NOT CONSTITUTE A TITLE SEARCH BY MVE, INC. TO DETERMINE OWNERSHIP OR EASEMENTS OF RECORD. FOR ALL INFORMATION REGARDING EASEMENTS, RIGHTS-OF-WAY, TITLE, AND OTHER MATTERS OF RECORD, M.V.E., INC. RELIED ON TITLE COMMITMENTS PREPARED BY LAND TITLE GUARANTEE COMPANY, ORDER NO. ABN70194759-1-3, DATED NOVEMBER 6, 2007.
5. MONUMENTATION RECOVERED AND SET IS SHOWN ON THE REPLAT. ALL CORNERS SET NO. 4 REBAR WITH SURVEYOR'S PLASTIC CAP PLS 17666, UNLESS OTHERWISE NOTED.
6. ALL DIMENSIONS SHOWN ARE ACTUAL FIELD MEASUREMENTS UNLESS OTHERWISE SHOWN.
7. THE SUBJECT PROPERTY IS NOT IN A DESIGNATED FLOOD PLAIN ACCORDING TO FEDERAL EMERGENCY MANAGEMENT AGENCY, FLOOD INSURANCE RATE MAP NO. 08035C0169F FOR DOUGLAS COUNTY, COLORADO AND UNINCORPORATED AREAS DATED SEPTEMBER 30, 2005.
8. UNLESS OTHERWISE NOTED, ALL LOTS SHALL HAVE A 10-FOOT UTILITY EASEMENT ALONG THE FRONT, SIDE AND REAR LOT LINES AS SHOWN HEREON. THESE UTILITY EASEMENTS ARE FOR THE INSTALLATION, MAINTENANCE AND OPERATION OF UTILITIES AND DRAINAGE FACILITIES INCLUDING, BUT NOT LIMITED TO, ELECTRIC LINES, GAS LINES, CABLE TELEVISION LINES, FIBER OPTIC AND TELEPHONE LINES, AS WELL AS PERPETUAL RIGHT FOR INGRESS AND EGRESS FOR INSTALLATION, MAINTENANCE AND REPLACEMENT OF SUCH LINES.
9. NOTICE: ACCORDING TO COLORADO LAW YOU MUST COMMENCE ANY LEGAL ACTION BASED UPON ANY DEFECT IN THIS SURVEY WITHIN THREE YEARS AFTER YOU FIRST DISCOVER SUCH DEFECT. IN NO EVENT, MAY ANY ACTION BASED UPON ANY DEFECT IN THIS SURVEY BE COMMENCED MORE THAN TEN YEARS FROM THE DATE OF THE CERTIFICATION SHOWN HEREON. (SECTION 13-80-105 C.R.S.).
10. PER THE NEW HOPE CHURCH, SIA, THE TOWN WILL BE RESPONSIBLE TO PROVIDE FUNCTIONAL MAINTENANCE TO THE DETENTION POND, WHILE THE PROPERTY OWNER WILL PROVIDE GROUND MAINTENANCE.
11. THE APPROVAL OF THIS REPLAT VACATES ALL PRIOR PLATS FOR THE AREA DESCRIBED BY THIS REPLAT.
12. PURSUANT TO SECTION 14.02.040 OF THE TOWN OF CASTLE ROCK MUNICIPAL CODE, THE TOWN OF CASTLE ROCK HEREBY ABANDONS A PORTION OF THE 10 FOOT UTILITY EASEMENT CREATED BY THE FINAL PLAT FOR THE MEADOWS FILING NO. 3 AS DEPICTED HEREON. IT IS THE UNEQUIVOCAL INTENT OF THE TOWN COUNCIL TO SO ABANDON THIS EASEMENT.

SURVEYORS CERTIFICATE

I, JOHN L. SWAYNE, A DULY REGISTERED PROFESSIONAL LAND SURVEYOR IN THE STATE OF COLORADO, DO HEREBY CERTIFY THAT THIS PLAT TRULY AND CORRECTLY REPRESENTS THE RESULTS OF A SURVEY MADE ON MARCH 17, 2008 BY ME OR UNDER MY DIRECT SUPERVISION AND THAT ALL MONUMENTS EXIST AS SHOWN HEREON; THAT MATHEMATICAL CLOSURE ERRORS ARE LESS THAN 1:50,000 (SECOND ORDER); AND THAT SAID PLAT HAS BEEN PREPARED IN FULL COMPLIANCE WITH ALL APPLICABLE LAWS OF THE STATE OF COLORADO DEALING WITH MONUMENTS, SUBDIVISIONS, OR SURVEYING, AND WITH ALL PROVISIONS, UNDER MY CONTROL, OF THE TOWN OF CASTLE ROCK, SUBORDINATE TO THE STATE OF COLORADO.
