

Narrative: I would like to discuss renovation and change of use for the existing and vacant Kneader's Bakery building located at 826 New Memphis Court, Castle Rock, CO. I propose to change the use from restaurant to medical, consisting of an urgent care with additional outpatient services. There will be minor exterior renovations and significant interior renovations. All improvements will be submitted and approved by the Promenade at Castle Rock Architectural Control Committee. I look forward to discussing this project further, thank you for your consideration.
