6.2 Exterior Lighting. No exterior lights of any sort may be erected, placed, installed or otherwise incorporated into the property, adjacent road right-of-way or adjacent property or open space wherein any glare or direct light is visible beyond the perimeter of the property. This applies to all lighting, including, but not limited to entry lights, garage lights, driveway illumination and interior lights visible from off property.

6.3 Utilities. All public utility distribution lines must be placed underground.

SECTION 7: CONTROL PROVISIONS

- A. Use Area Boundaries. There shall be some limited flexibility in determining the exact location of Use Area boundaries due to the scale of the drawing and the somewhat diagrammatic depiction of Use areas (rounded corners, separation from other areas, etc.). However, changes or adjustments to boundaries may only be made through the PD Amendment procedure as provided in the Town Code, which states: "Use Area Boundaries may be administratively adjusted when no more than 10% of the acreage of any one planning area is affected, where density is not increased, where open space is not reduced, and where such does not involve an inclusion or exclusion of land from the overall Preliminary or Final PD."
- B. Road Alignments. The Amended Preliminary PD Plan is intended to depict general locations of roadways, and access points. Recognizing that final road alignments are subject to engineering studies, minor arterial and collector road realignments are expected, and can be accomplished by the developer through the platting process, without any amendment to this ordinance or to the Plan itself.

SECTION 8: FINAL PD SITE PLANS

8.1 Submission of Final PD Site Plans and Plats and additional information. Following approval of the Amended Preliminary PD Site Plan, the property owners shall submit a Final PD Site Plan for all or any portion or portions of the general use areas as are then ready for development. No building permit will be issued until a Final PD Site Plan and Final Subdivision Plat have been approved for the property or a portion of the property by the Town Council and duly recorded.

SECTION 9: TRANSITIONAL USE

After approval of the Preliminary Site Plan incorporated as part of this amendment to the Town of Castle Rock Zoning District Map, any portion of the Hazen-Moore PD which does not have an approved final site plan may be used for agricultural purposes. These uses may continue until a final site plan for such property, is approved or until such a time that the Town Council determines that the proximity of these uses to developed areas provides a negative impact to the health, safety or welfare of residents/owners of such developed areas.

Permitted Agricultural uses including farming, ranching, gardening, and buildings accessory to these uses. In no event commercial feed yards, poultry or hog farms be permitted.

Transitional Use Areas shall be closed to vehicular traffic and off-road recreational motor biking excepting agricultural vehicles and implements, emergency vehicles, vehicles engaged in utility and maintenance work, and designers of the developer and/or Town.

Any activity permitted by this section shall be considered to be a valid pre-existing non-conforming use within the area described above until a Final PD Site Plan for such area or areas has been approved; provided however, that the Town Council reserves the right to prohibit such agricultural uses in areas for which no Final PD Site Plan has been submitted if the Council determines that due to the proximity of such uses to developed areas a danger exists to the health, safety or welfare of the residence of such developed area(s).

SECTION 10: SEVERABILITY OF PROVISIONS

In the event that any provision hereof shall be determined to be illegal or void by the final order of any court of competent jurisdiction, the remaining provisions shall remain in full force and effect.
