Section 2. Construction of Improvements. The Improvements shall be constructed in strict accordance with the Plans, or to the extent not otherwise provided in the Plans, in accordance with applicable Town Regulations. The Improvements may be constructed in phases in accordance with the applicable Phasing Plan, if any. If so approved by the Director, a sub-Phasing Plan may be implemented such that Improvements are developed only as necessary to service specific sub-phases.

In the event Subdivider has not obtained all necessary Town permits and approvals and commenced construction of at least one of the Phases within one year of the date of recordation of this Agreement, the Town's authorization under this Agreement shall lapse. As a condition to commencement of construction of any of the Improvements thereafter, Subdivider shall demonstrate to the Town Council good cause for the delay and its good faith intention and financial ability to proceed and complete the Improvements for the Subdivision; provided that Subdivider shall not be required to resubmit a land use application for the Subdivision.

Improvements must be completed not later than one year after the date of issuance of the first construction permit for such Phase, provided that the completion date may be extended by the Director for up to 6 months if justified due to adverse weather, material unavailability, or other unanticipated and unavoidable circumstances beyond the control of Subdivider, as determined by the Director.

Section 3. Restrictions Pending Completion of Improvements. The Property shall not qualify for building permits until the Improvements are substantially completed, except when authorized by the Director, as further provided in this section. Substantial completion occurs when the Improvement is functional and operable in all material respects, although not completed to the standard required for formal acceptance by the Town for operation and maintenance. The Property shall not qualify for certificates of occupancy unless the Improvements have been initially accepted by the Town as provided in section 4.

The Director, in his/her absolute discretion, may authorize issuance of one or more designated building permits prior to substantial completion, if unusual and unanticipated circumstances warrant granting a relaxation of the substantial completion requirement. In such

event, the Director may impose the condition that all work must cease under such building permit if the Improvements are not substantially completed by the date specified in the permit. In no event shall the Director authorize the issuance of a building permit unless there is adequate emergency access to the site and the water system is completed sufficiently to provide adequate fire flows for fire protection.

Section 4. Acceptance of Improvements. Upon substantial completion of the Improvements, Subdivider may request inspection. Town shall make inspection within 5 working days of the date Subdivider requests final inspection, and Town shall notify Subdivider of non-conforming work within 5 working days after the inspection is made. Subdivider shall have 30 days from the date of receipt of Town's inspection report to remedy the non-conforming work unless the remedial work is delayed due to weather conditions, in which event the work shall be completed as soon as reasonably feasible thereafter.

With cure of non-conforming work, receipt of record drawings and initial acceptance of the Improvements by Town, Subdivider shall promptly convey its interest in the Improvements by document in the form attached as *Exhibit 2*. With conveyance of the Improvements and receipt of the warranty surety, the applicable warranty period commences.

Section 5. Improvements Security. In accordance with Town Regulations, Subdivider shall provide Town with a letter of credit, cash escrow deposit or performance bond to secure construction of the Phase Improvements. The amount of the Security shall be dependent on the form of Security provided, calculated in accordance with the Town Regulations ("Security"). The form of the Security is subject to approval by the Town Attorney. The Security shall be irrevocable for a period or term extending 60 days beyond the Completion Date. "Completion Date" shall mean the date the Town gives initial acceptance for the Improvements. Security which has a term expiring on or before 60 days after the Completion Date shall contain a provision that unless renewed or substitute Security is provided, prior to its expiration date, it may be called by the Town for lack of adequate Security. The Security shall be delivered to Town prior to and as a condition of the issuance of the first public works permit. The warranty portion of the Security shall be released as authorized in the Town Regulations.

The purpose of the Security is to provide Town with the financial resources to mitigate any public health and safety hazards and/or re-grade and re-vegetate the Subdivision and/or complete construction or installation of any of the Improvements, should Subdivider default in its obligation to complete the Improvements (the "Remedial Work"). The Town retains the absolute discretion to determine what Remedial Work, if any is undertaken by Town on the Improvements, in the event of such default. Any portion of the Security not utilized in the Remedial Work shall be returned to the obligor on the Security, or in the event a letter of credit or cash escrow is furnished by Subdivider, to Subdivider.

With Town's initial acceptance of the Improvements, the Security shall be reduced to 15% of the actual construction cost of the Improvements in accordance with Town

Regulations. The warranty portion of the Security shall be released as authorized in the Town Regulations.

Section 6. Landscaping.

A. Landscaping is required in connection with the Improvements and in connection with the private improvements on the Property as follows: (i) Subdivider shall make commercially reasonable efforts to complete all Landscaping pertaining to the Improvements prior to initial acceptance of the Improvements as prescribed in the Plans; and (ii) Subdivider shall make commercially reasonable efforts to complete all applicable Landscaping pertaining to private improvements on the Property prior to the issuance of a certificate of occupancy for related private improvements.

B. In the event Subdivider is unable to complete installation of the Landscaping in accordance with Subparagraph A, above, the following provisions shall apply:

1. Subdivider shall make a cash deposit to the Town in the amount of 100% of the estimated complete cost of the applicable Landscaping, to be held by the Town as security for completion of the Landscaping ("Landscape Deposit").

2. The amount of the Landscape Deposit shall be determined by the Town after review of the cost estimate of completion furnished by the Subdivider's landscape architect or contractor;

3. The Landscape Deposit must be made prior to and as a condition to:

a. Initial acceptance of the Improvements under A(i); above; or

b. Prior to the issuance of a certificate of occupancy for the private improvements under A(ii), above.

4. The Landscape Deposit shall not accrue interest;

5. Subdivider shall have 180 days from the date the Landscape Deposit is deposited with Town to complete the applicable Landscaping;

6. Within 10 days of completion of the Landscaping and acceptance by the Town, Town shall return the Landscape Deposit to Subdivider;

7. If at the end of the 180 day period the applicable Landscaping has not been completed and accepted by Town, Town may use the Landscape Deposit to the extent necessary to complete the Landscaping, provided Town will not be obligated to spend any Town funds to complete the applicable Landscaping in the event the Landscape Deposit is insufficient to fund completion; and

8. Town shall return to Subdivider any portion of the Landscape Deposit which remains after the Town has completed the Landscaping within 10 days after completion of such Landscaping.

Section 7. Water Supply. The entire 7.58 SFE of the "Water Credit" provided in Article IV of the Development Agreement have been applied to address the water demand requirements for the Subdivision (the "Subdivision Water Credit"). Town shall not require additional water rights or water resources as a condition to issuance of land use approvals within the Property, so long as the aggregate water demand from development within the Property computed in accordance with the Town Regulations does not exceed the Subdivision Water Credit.

To the extent that the water demand created by development on the Property computed in accordance with Town Regulations exceeds the Subdivision Water Credit, Subdivider must provide additional water resources computed in accordance with Town Regulations sufficient to meet the demand in excess of the initial Subdivision Water Credit.

Absent compliance with this section, Town may withhold development approvals on the Property for any proposed use, which, after taking into account all previous development on the Property, that will create an aggregate water demand in excess of the Subdivision Water Credit (as the same may be subsequently augmented in accordance with this section). Should the Subdivision Water Credit not be fully utilized after full development of the Subdivision, the remaining SFE shall revert to the Town pursuant to 4.06 of the Development Agreement.

Section 8. Fifth Street Improvements. Construction of curb and gutter, street lighting, streetscape, and drainage improvements for that portion of Fifth Street that fronts the Property shall be included in the Plans and constructed by Subdivider, at Subdivider's sole expense.

Section 9. Water Conservation Regulations. The landscaping of the Property shall conform to the Town's adopted water conservation requirements in effect at the time of the building permit application.

Section 10. Stormwater Drainage Improvements. Development of the Property necessitates the need for certain off-site drainage Improvements, which include the design and construction of a 30" RCP extension and overflow channel to convey the 100-year undetained stormwater flows from the Property to the tie-in point of the Parkview Tributary as further detailed in the Plans as further described in *Exhibit 3* ("Outfall Improvements"). The Outfall Improvements Plans shall be approved by the Town prior to the issuance of any building permits for private improvements. The Property shall not qualify for the issuance of a certificate of occupancy until the Outfall improvements are constructed and accepted by Town for operation and maintenance.

Section 11. Application of Development Agreement. The Development Agreement may contain certain other conditions and requirements which apply to the development of the Property. The enumeration in this Agreement of certain of obligations triggered under the phasing plan of the Development Agreement is not inclusive of all such obligations. In the event of a conflict between the Development Agreement and this Agreement, the Development Agreement shall govern and control.

Section 12. Default. The following occurrences constitute a default by the Subdivider:

- (a) failure to commence or complete construction of the Improvements within the time periods prescribed in Section 3, above;
- (b) failure to cure the defective construction of any Improvements within the applicable cure period;
- (c) Subdivider has breached, or caused a breach of any other provision of this Agreement.

As a condition to Town's right to exercise its remedies for default, Town shall give written notice to Subdivider of the occurrence of an event of default. Subdivider shall have thirty (30) calendar days from the receipt of such notice to cure the default. If timely cure of the noticed default(s) is not accomplished, Town shall thereafter be entitled to pursue its remedies against Subdivider.

Section 13. Town's Rights Upon Default. When any event of default occurs and has not been timely cured, the Town may:

- (a) if the applicable Improvements have not been timely completed, call the Security in accordance with its terms, and apply the Security for the Remedial Work. Subdivider grants to Town and, if applicable, the surety, and their employees, agents and contractors, a non-exclusive right and easement to enter onto the Subdivision after an uncured default for the purpose of undertaking the Remedial Work;
- (b) if Improvements have not been timely completed, withhold issuance of building permits, certificates of occupancy and tap connections for which the Improvements have not been completed or accepted;
- (c) record a notice of non-compliance with this Agreement in the Records to provide record notice of Subdivider's default, which notice shall promptly be released by Town upon cure of the default; and

- (d) bring suit against Subdivider for money damages and/or equitable relief for breach of this Agreement.

Section 14. Indemnification. Subdivider indemnifies and holds Town harmless from and against all claims, costs and liability of every kind and nature, for injury or damage received or sustained by any person or entity in connection with, or on account of construction or repair of the Improvements by Subdivider.

Section 15. No Waiver. No waiver of any provision of this Agreement will be deemed or constitute a waiver of any other provision, nor will it be deemed or constitute a continuing waiver unless expressly provided for by a written amendment to this Agreement signed by both Town and Subdivider, nor will the waiver of any default under this Agreement be deemed a waiver of any subsequent default or defaults of the same type. The Town's failure to exercise any right under this Agreement will not constitute approval of any wrongful act by the Subdivider or the acceptance of any Improvement.

Section 16. Attorney's Fees. Should either party be required to resort to litigation to enforce the terms of this Agreement, the prevailing party, plaintiff or defendant, will be entitled to costs, including reasonable attorney's fees and expert witness fees, from the opposing party. If the court awards relief to both parties, each will bear its own costs in their entirety.

Section 17. Notice. Any notice required or permitted by this Agreement will be deemed effective when personally delivered in writing or by facsimile, or three (3) days after notice is deposited with the U.S. Postal Service, postage prepaid, certified, and return receipt requested and addressed as follows:

If to Town: Town of Castle Rock
 Attn: Town Attorney
 100 Wilcox Street
 Castle Rock, CO 80104

If to Subdivider: Calvary Chapel, Castle Rock
 1100 Caprice Drive
 Castle Rock, CO 80109

Section 18. Recordation. This Agreement shall be recorded with the Clerk and Recorder's Office of Douglas County, Colorado and shall be binding upon the assigns, successors, and grantees of Subdivider in the same manner as if such third parties were signatories to this Agreement.

Section 19. Immunity. Nothing contained in this Agreement constitutes a waiver of the Town's sovereign immunity under any applicable state law.
