Section 2. Construction of Improvements. The Improvements shall be constructed in strict accordance with the Plans, or to the extent not otherwise provided in the Plans, in accordance with applicable Town Regulations. The Improvements may be constructed by phase, in accordance with an applicable phasing plan, if any. If so approved by the Director, a sub-phasing plan may be implemented such that the Improvements are developed only as necessary to service specific sub-phases.

In the event Subdivider has not obtained all necessary Town permits and approvals and commenced construction of the Improvements within one year of the date of recordation of this Agreement, the Town's authorization under this Agreement shall lapse. As a condition to commencement of construction of any of the Improvements thereafter, Subdivider shall demonstrate to the Town Manager good cause for the delay and its good faith intention and financial ability to proceed and complete the Improvements for the Subdivision; provided that Subdivider shall not be required to resubmit a land use application for the Subdivision. For the purposes of this Section 2, Subdivider's compliance with Section 5 of this Agreement shall presumptively demonstrate Subdivider's good faith intention and financial ability to proceed and complete development of the Subdivision.

Improvements must be completed not later than one year after the date of issuance of the first construction permit for such Improvements ("Completion Date"), provided that the Completion Date may be extended by the Director for up to 6 months if justified due to adverse weather, material unavailability, or other unanticipated and unavoidable circumstances beyond the control of Subdivider, as reasonably determined by the Director.

Section 3. Restrictions Pending Completion of Improvements. The Property shall not qualify for building permits until the Improvements are substantially completed, except when authorized by the Director, as further provided in this section. Substantial completion occurs when the Improvement is functional and operable in all material respects, although not completed to the standard required for formal acceptance by the Town for operation and maintenance. The Property shall not qualify for the issuance of certificates of occupancy unless the Improvements have been initially accepted by the Town as provided in Section 4.

The Director, in his/her absolute discretion, may authorize issuance of one or more designated building permits prior to substantial completion, if unusual and unanticipated circumstances warrant granting a relaxation of the substantial completion requirement. In such event, the Director may impose the condition that all work must cease under such building permit if the Improvements are not substantially completed by the date specified in the permit. In no event shall the Director authorize the issuance of a building permit unless there is adequate emergency access to the site and the water system is completed sufficiently to provide adequate fire flows for fire protection.

Section 4. Acceptance of Improvements. Upon substantial completion of the Improvements, Subdivider may request inspection. Town shall make inspection within 5 working days of the date Subdivider requests such inspection, and Town shall notify Subdivider of non-conforming work within 5 working days after the inspection is made. Subdivider shall have 30 days from the date of receipt of Town's inspection report to remedy the non-conforming work unless the remedial work is delayed due to weather conditions, in which event the work shall be completed as soon as reasonably feasible thereafter.

With cure of non-conforming work, receipt of record drawings and initial acceptance of the Improvements by Town, Subdivider shall promptly convey its interest in the Improvements by document in the form attached as *Exhibit 2*. With conveyance of the Improvements and receipt of the warranty surety, the applicable warranty period commences.

Section 5. Improvements Security. In accordance with Town Regulations, Subdivider shall provide Town with a letter of credit, cash escrow deposit or performance bond. The amount of the Security shall be dependent on the form of Security provided, calculated in accordance with the Town Regulations ("Security"). The form of the Security is subject to approval by the Town Attorney. The Security shall be irrevocable for a period or term extending 60 days beyond the Completion Date. Security which has a term expiring on or before 60 days after the Completion Date shall contain a provision that unless renewed or substitute Security is provided, prior to its expiration date, it may be called by the Town for lack of adequate Security. The Security shall be delivered to Town prior to and as a condition of the issuance of the first public works permit. The warranty portion of the Security shall be released as authorized in the Town Regulations.

The purpose of the Security is to provide Town with the financial resources to mitigate any public health and safety hazards and/or re-grade and re-vegetate the Subdivision and/or complete construction or installation of any of the Improvements, should Subdivider default in its obligation to complete the Improvements (the "Remedial Work"). The Town retains the absolute discretion to determine what Remedial Work, if any is undertaken by Town on the Improvements, in the event of such default. Any portion of the Security not utilized in the Remedial Work shall be returned to the obligor on the Security, or in the event a letter of credit or cash escrow is furnished by Subdivider, to Subdivider.

With Town's initial acceptance of the Improvements, the Security shall be reduced to 15% of the actual construction cost of the Improvements in accordance with Town Regulations. The warranty portion of the Security shall be released as authorized in the Town Regulations.

Section 6. Landscaping.

A. Landscaping is required in connection with the Improvements and in connection with the private improvements (i.e., structures) on the Property. Subdivider shall make commercially reasonable efforts to complete all Landscaping pertaining to the Improvements prior to initial acceptance of the Improvements as prescribed in the Plans. Should Subdivider be unable to complete the Landscaping prior to initial acceptance of the Improvements, the Landscaping shall be completed prior to the issuance of a certificate of occupancy for related private improvements.

B. In the event Subdivider is unable to complete installation of the Landscaping in accordance with Subparagraph A, above, the following provisions shall apply:

1. Subdivider shall make a cash deposit to the Town in the amount of 100% of the estimated completion cost of the applicable Landscaping, to be held by the Town as security for completion of the Landscaping ("Landscape Deposit").

2. The amount of the Landscape Deposit shall be determined by the Town after review of the cost estimate of completion furnished by the Subdivider's landscape architect or contractor;

3. The Landscape Deposit must be made prior to and as a condition to:
 - a. Initial acceptance of the Improvements under A; above; or
 - b. Prior to the issuance of a certificate of occupancy for the private improvements under A, above.
4. The Landscape Deposit shall not accrue interest;
5. Subdivider shall have 180 days from the date the Landscape Deposit is deposited with Town to complete the applicable Landscaping;
6. Within 10 days of completion of the Landscaping and acceptance by the Town, Town shall return the Landscape Deposit to Subdivider;
7. If at the end of the 180 day period the applicable Landscaping has not been completed and accepted by Town, Town may use the Landscape Deposit to the extent necessary to complete the Landscaping, provided Town will not be obligated to spend any Town funds to complete the applicable Landscaping in the event the Landscape Deposit is insufficient to fund completion; and
8. Town shall return to Subdivider any portion of the Landscape Deposit which remains after the Town has completed the Landscaping within 10 days after completion of such Landscaping.

Section 7. Water Supply. Town shall not require water rights or water resources as a condition to issuance of land use approvals within the Subdivision, so long as the development does not create a water demand, computed in accordance with the Town Regulations.

To the extent that a water demand is created by development of the Property (computed in accordance with Town Regulations), Town is authorized to debit the Meadows Water Bank in the number of SFE necessary to meet the demand ("Subdivision Water Credit"). However, in the event the Meadows Water Bank balance is insufficient to meet such requirement, Subdivider must provide additional water resources in accordance with Town Regulations sufficient to meet the demand.

Absent compliance with this section, and subject to the terms and conditions of the Development Agreement, Town may withhold development approvals on the Property for any proposed use, which will create a water demand (as the same may be subsequently augmented in accordance with this section). Should the Subdivision Water Credit not be fully utilized after full development of the Subdivision, the remaining SFE shall revert to the Meadows Water Bank, as provided in the Development Agreement.

Section 8. Water Efficiency Plan. Subdivider, at its option, may submit for Town consideration, a water efficiency plan in order to maximize the use of the Subdivision Water Credit in the Meadows Water Bank. All water efficiency plans shall be submitted in accordance with the Town Regulations in place at the time of such submittal.

Section 9. Floodplain Improvements. Not later than 6-months from the date of issuance of the initial acceptance of the floodway encroachment Improvements at 6400 South Tributary, Subdivider shall provide Town with a FEMA approved Letter of Map Revision (“LOMR”). Town shall not release the warranty surety provided to Town for the Improvements until such time as the approved LOMR has been issued by FEMA.

Section 10. Temporary Access Maintenance. Until such time as the permanent access is provided within the “Maintenance Area” as depicted on *Exhibit 3*, Subdivider, at its sole expense, shall be responsible for the continued maintenance of the temporary access drive for that portion of the right of way for North Meadows Drive located within the Maintenance Area.

Section 11. Access Easements.

A. Prior to issuance of a building permit on the Property, at no cost to Town, Subdivider shall cause the grant to Town a permanent access easement off-site of the Property to enable Town to access certain municipal facilities located adjacent to the Property.

B. It is anticipated that the Subdivision will be developed as an electric substation, with security fencing around the perimeter of the Property. Accordingly, Subdivider shall provide Town with the necessary permanent access easements to enable continued access to municipal facilities located within the Property.

Section 12. Responsibility for Improvement Construction. Subdivider shall be obligated to perform the covenants of Subdivider under this Agreement, until and unless the obligations with respect to designated Improvements and/or other obligations of Subdivider under this Agreement are assigned to and assumed by a third party (Builder) as follows:

- (a) the Builder acquires title to the Property from Subdivider;
- (b) the Builder executes the Partial Assumption of Subdivision Improvements Agreement in the form attached as *Exhibit 4*; and
- (c) the Builder furnishes the Town with the Security and rights of entry to assure construction of the Improvements as required by this Agreement.

Upon compliance with the above conditions, Builder shall be solely responsible for completion of the Improvements and/or other assigned and assumed obligations under this Agreement. However, in the event the applicable Builder defaults in its obligation to complete the Improvements, Town shall have the right to withhold issuance of building permits and certificates of occupancy for the Subdivision (as further authorized in section 3, above).

Subdivider and Builder shall have the right but not the obligation to cure a default by the other. When the provisions of this section are operative, references in this Agreement to Subdivider shall mean Builder, unless the context clearly indicates to the contrary.

Section 13. Water Conservation Regulations. The landscaping of the Property shall conform to the Town’s adopted water conservation requirements in effect at the time of

the building permit application.

Section 14. Application of Development Agreement. The Development Agreement may contain certain other conditions and requirements which apply to the development of the Property. The enumeration in this Agreement of certain of obligations triggered under the phasing plan of the Development Agreement is not inclusive of all such obligations. In the event of a conflict between the Development Agreement and this Agreement, the Development Agreement shall govern and control.

Section 15. Default. The following occurrences constitute a default by the Subdivider:

- A. failure to commence or complete construction of the Improvements within the time periods prescribed in Section 3, above;
- B. failure to cure the defective construction of any Improvements within the applicable cure period;
- C. Subdivider has breached, or caused a breach of any other provision of this Agreement.

As a condition to Town's right to exercise its remedies for default, Town shall give written notice to Subdivider and if applicable to Builder, of the occurrence of an event of default. Subdivider and/or Builder shall have thirty (30) calendar days from the receipt of such notice to cure the default. However, if Subdivider or Builder unable to effect a cure of a default under A, above, solely due to adverse weather conditions, then the right to cure shall be extended for an additional 90 days, provided Subdivider or Builder extends the terms of the Security to 60 days beyond the date of the extended cure period.

If timely cure of the noticed default(s) is not accomplished, Town shall thereafter be entitled to pursue its remedies against Subdivider, or as applicable, Builder.

Section 16. Town's Rights Upon Default. When any event of default occurs and has not been timely cured, the Town may:

- A. if the applicable Improvements have not been timely completed, call the Security in accordance with its terms, and apply the Security for the Remedial Work. Subdivider grants to Town and, if applicable, the surety, and their employees, agents and contractors, a non-exclusive right and easement to enter onto the Subdivision after an uncured default for the purpose of undertaking the Remedial Work;
- B. if the Improvements have not been timely completed, withhold issuance of building permits, certificates of occupancy and tap connections for which the Improvements have not been completed or accepted;
- C. record a notice of non-compliance with this Agreement in the Records to provide record notice of Subdivider's default, which notice shall promptly be released by Town upon cure of the default; and

- D. bring suit against Subdivider for money damages and/or equitable relief for breach of this Agreement.

On such terms and conditions as are reasonably acceptable to Town, Town shall permit Subdivider, or as applicable, Builder, to undertake Remedial Work and to utilize the Security for such purpose in the event of an uncured default by the other. In the event Subdivider (or Builder) elects to undertake the Remedial Work, it shall so notify Town in writing, and Town shall have 30 days from receipt of such notice to specify the terms and conditions under which the Subdivider (or Builder) may perform the Remedial Work and access the Security to pay for the Remedial Work.

Section 17. Town Default. In the event Town should fail to timely perform its obligations under this Agreement, Subdivider shall give written notice to Town of such default and Town shall have 10 calendar days from the receipt of such notice to cure the default. If the default is not timely cured, Subdivider shall have the right to seek legal and/or equitable relief against the Town.

Section 18. Indemnification. Subdivider indemnifies and holds Town harmless from and against all claims, costs and liability of every kind and nature, for injury or damage received or sustained by any person or entity in connection with, or on account of construction or repair of the Improvements by Subdivider; provided however such indemnity shall only extend to claims for injury or damage occurring prior to the date of final acceptance of the Improvements by the Town.

Section 19. No Waiver. No waiver of any provision of this Agreement will be deemed or constitute a waiver of any other provision, nor will it be deemed or constitute a continuing waiver unless expressly provided for by a written amendment to this Agreement signed by both Town and Subdivider, nor will the waiver of any default under this Agreement be deemed a waiver of any subsequent default or defaults of the same type. The Town's failure to exercise any right under this Agreement will not constitute approval of any wrongful act by the Subdivider or the acceptance of any Improvement.

Section 20. Attorney's Fees. Should either party be required to resort to litigation to enforce the terms of this Agreement, the prevailing party, to the extent permitted by law, plaintiff or defendant, will be entitled to costs, including reasonable attorney's fees and expert witness fees, from the opposing party. If the court awards relief to both parties, each will bear its own costs in their entirety.

Section 21. Notice. Any notice required or permitted by this Agreement will be deemed effective when personally delivered in writing or by facsimile, or three (3) days after notice is deposited with the U.S. Postal Service, postage prepaid, certified, and return receipt requested and addressed as follows:
